## Rescue News

Back yard breeders produce cute little puppies, which end up unwanted and in shelters and rescue.

This puppy was bred from a Piebald breeding in Lancaster, Ca. The back yard breeder was selling the puppies for \$300.00 each.

As a member of the Great Dane Club of California and everyone who enjoys our wonderful breed, we need remember to “educate” on our breed when we have the opportunity.

The impressive and regal Great Dane is sure to get attention when walking down the street, at the vet or at a dog show, use this opportunity to educate.

Educating those showing interest in the breed is key to helping stop the continued success of back yard breeders.

A great reference of Great Dane facts is found on “Breed Responsibility” by Georgia Hymmen.

*It is included in this bulletin.*

The Great Dane Club of California donates \$250.00 twice a year to Spring Valley Vet to help towards vet care for Danes rescued by Indian Dane Rescue. Jim Howey and Randy VandeBrake continue to donate food to Indian Dane Rescue and other rescues, to date 43,137 lbs of donated food have helped feed rescue dogs. Individuals wishing to help rescue should contact Indian Dane Rescue or the group “Great Dane Friends” on Facebook. Great Danes continue to find themselves in need of rescue and we continue to see way too many in our Southern California shelters.

## Breed Responsibility

You love your Great Dane... he's the best dog you've ever had. Why not take it a step further and be as educated about the breed as you can? Chances are you will be approached and asked questions about your Dane while on walks and at classes. To be fair to the breed, you want to answer those questions as correctly as possible.

To do this, you might want to do a little homework first. You can obtain excellent information on the breed at these two websites: [www.gdca.org](http://www.gdca.org) and [www.ginnie.com](http://www.ginnie.com) Information that you might want to pass on would be:

- There are six recognized colors: fawn, brindle, black, blue, harlequin and mantle. These are the only colors that can be shown.
- Danes can come in other colors. Colors coming from the harlequin color family are whites (often deaf), merles, blacks, blacks with white.
- Occasionally dogs from mixed color breeding (see [www.gdca.org](http://www.gdca.org) for more information) may be white with fawn or brindle patches. Termed mismarks, these dogs can make good pets, but should never be bred or considered "rare" colors.
- Any color of Dane can be registered with the AKC. Only recognized colors can be shown. Certain colors should not be bred. The Great Dane Club of America has a color code; please visit [www.gdca.org](http://www.gdca.org) for more information.
- Danes have a short life span and can be prone to many health problems. Concerned breeders do health testing on all adult breeding stock to screen for these problems.
- Danes are not for all families as they are expensive to care for and require a high level of commitment. They need to be house pets and an important part of the family. They do not do well as outside dogs.
- Not all Danes get along with other animals. Some may be prone to chasing livestock or being dog aggressive.

Anyone who is involved in breeding Danes should be fully aware of what is involved. New breeders should work with an established mentor. Any person considering breeding their Dane should volunteer at least 6 months to a rescue group so they know the scope of the unwanted Dane problem.

# Big Dog Corner

## 10 Breeds Favored by Dog Thieves

Found on [www.HealthyPetDr.KarenBecker.com](http://www.HealthyPetDr.KarenBecker.com)

The AKC reported a 70% increase in dog thefts in 2012. Dog “flippers” are out in force, stealing and selling other people’s beloved pets for top dollar. Lucky us we are NOT on this list!!

While checking out [www.Greatdanereview.com](http://www.Greatdanereview.com) I came across an article I found to be very informative and eye opening. “Making Your Dane Adaptable Or How to Prevent Mommy-it is” By Georgia Hymmen for the show or companion pup. The information in this article is in my opinion, valuable for all who come in contact with any dog from a handler to veterinarian and staff, as well as pet sitters and those in between.

### Noisy Tummy

Is your dog plagued with a noisy tummy? I am not talking about the normal soft intestinal noises but rather the kind that requires you to turn up the television to drown them out or the kind that wakes you from a sound sleep. No, your dog is not possessed; however, it is a sign of a gassy tummy which no one wants in a large breed. These were common scenarios Huey and I were often dealing with, and of course when the tummy was noisy Huey was off his food which only made the situation worse. Huey was normally fed 6 to 8 cups of food daily divided into 2 equal meals. With a little experimenting I found that the same amount of food divided into 4 daily servings with the last serving given at bedtime and all servings given with one Gas-X has almost completely eliminated Huey’s noisy tummy. Thank you Melanie!! It’s great info. I tried it on Pickles and have seen improvement with her “Noisy Yummy”!

As always use good judgment in the health and welfare of your big dog. Remember to consult your regular Veterinarian when you have questions and concerns!

A special thought for all our spring puppies; Owing a Great Dane is life-changing! They make us better people. They change our lives in ways people never can! Nothing is better than The Love of a Great Dane!!

Tell us what makes life with a big dog as easy as it seems, since we all do it so well!!!
